

A Work shop on Personality Development- a Report

Need & Significance of the Event:

Dr. S.C. Chitkara, Director Management Department conducted a workshop on Personality development for the B.Ed. students on 27th Jan 2017. The need for such an important program was felt by the faculty members during interaction with the students in and out side classroom situations. Most of the students belong to rural areas of UP and are not exposed to any extra activities or work culture in modern time.

The institute is committed to conduct student development programs time to time to keep students update with the knowledge & to give maximum experience in one session. At the time of starting of the program college chairman was also present along with all the faculty members and student teachers.

Evaluation of facts:

Dr. Chitkara has been associated with such type of programs in the past and has a strong career history. He told how could one develop effective personality and achieve the height of success. He also told how could one increase attention level. He explained the idea with lots of examples, role plays and activities.

The Conclusion & Recommendations:

The session was completed with lots of activities, tea break and lunch break in between. Towards the end of the workshop students looked relaxed and they appreciated the workshop. The main points they appreciated were, personality is not merely associated with outer appearance but strongly concerned with our behavioural pattern like the way we walk, talk, dress-up, communication skill etc.

He also emphasized the importance of punctuality and time management in a teachers' life. All these things together make a dynamic personality. The workshop was so influential for the students that all the students had been very enthusiastic through out the program.

In the end of the session chairman Mr. Malik also gave few tips to the students and asked the department to conduct more program for the students. The session was ended with vote of thanks by the principal.

The college suggests the participation of out side members in such programs to make students more alert and attentive. Regular PD classes will be a part of the course to bring real change in the students.
